

I live in the San Antonio, Texas area and K-LOVE is an asset to the our community. It plays encouraging, positive news and contemporary Christian music which my whole family enjoys. If K-LOVE were to be displaced by another broadcaster providing different programming, it would be a loss to our family because no other station in our area has similar programming. It is in the public interests for K-Love to remain on the air to provide an alternative to the regular programming played by numerous stations in this area and in areas nationwide. Thank you for your assistance. Clay N. Martin
